

## EUROPEAN GRADUATE DEVELOPMENT PROGRAMME

**We are looking for the following disciplines with German language skills;**

1. Mechanical, Electrical, Mechatronics and Process Engineering Graduates
2. Food Technology and Food Science Graduates

Our Graduate Programme will provide you with both the know-how and the hands-on experience, to develop your engineering career in our dynamic, fast paced, ever- changing operating environment.

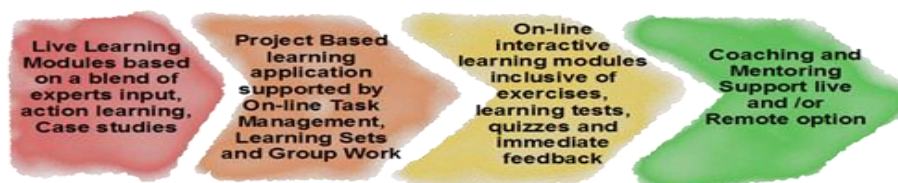

We are looking for individuals with a minimum of a 2:1 degree or equivalent in an Engineering discipline. The successful graduates will be highly results orientated coupled with an entrepreneurial spirit. You must be able to demonstrate a commitment and passion for engineering with strong business acumen and the appetite to deliver in an evolving business.

At ARYZTA we look for graduates with the following;

### Programme Design

Our eighteen month duration, structured graduate programme, is underpinned by external management development modules.
