

The Swiss-based family owned company Bühler is a global, industrial solutions provider for processing foods and manufacturing advanced materials, contributing to food security and high energy efficiency.

Around 65% of the worldwide harvested grain is processed on Bühler mills, around 50% of all car taillamps or headlamps are getting metallized on Bühler machines. Every day, billions of people come into contact with Bühler technologies to cover their basic needs for foods, mobility, or communication.

One of our strategic innovation project aims at using a side stream product in human food with the target to improve nutritional value of diverse food products as well as contributing to the sustainable use of natural resources. To strengthen our team, we are looking for a committed and motivated personality. You will work in an interdisciplinary team, in projects that are both, of direct industrial impact and in the context of the fourth industrial revolution.

Internship Project Management for 3 to 12 months

Uzwil

Duties

- Design the ideal process solution for the raw material including securing food safety, analyzing the process efficiency and doing trials to understand the different process steps and define the optimal process sequence
- Independently plan and carry out trials to validate process steps and equipment considering all the involved stakeholders
- Contact potential suppliers and arrange trials / trial equipment
- Present results in a clear and concise manner to the project owners – project team and advisory board / steering committee
- Document trial results and findings

Qualifications

- Educational background in process engineering and knowledge in food- or biotechnology
- Food loving and technology oriented personality
- Ability to illustrate and express complex subject matter in a clear and concise way (verbally and in written form)
- Initiative and independent way of working
- Ability to quickly gain a comprehensive overview of complex subject matters
- Fluent English, German of advantage

What we offer

- International, successful company with sustainable prospects for the future
- Wide technical and modern environment with interesting challenges
- Professional environment with an open communication culture
- Great, dynamic work environment

In case you do identify yourself in this profile and want to work in a successful team, we are looking forward to your application. **The next step is yours!**
