

The Dr. Schär Group is a specialist in the field of products for specific nutritional needs. For our R&D Centre, located at the AREA Science Park in Trieste, we are looking for a new employee (f/m) for the department

Research&Innovation

In the Application Research team, your main responsibilities:

- You will carry out innovation projects in the food packaging sector: studying new materials and their implementation on production lines, solving packaging problems and supporting the development of new products in the packaging sector.
- You will research and study new and innovative technologies for the packaging of gluten-free and medical nutrition products.
- You will collaborate with the technical department in the implementation of new packaging systems or their improvement.
- You will carry out industrial trials at our plants or at plant manufacturers.

Your profile:

- A technical education (Technology or Engineering degree).
- Experience of at least 3-5 years in the field of food processing systems.
- Fluency in Italian and English.
- Ability to work in a team, proactive approach and motivation to achieve objectives, problem solving, strong project management skills.
- Flexibility and willingness to travel throughout Italy and abroad.

We look forward to receiving your **online application!**
